### **The Cold War: A Global History**

For almost fifty years, the United States, the Soviet Union and China were engaged in the Cold War. But only recently has it become possible to study this global stalemate in its entirety: from the beginning to end. Through lecture and discussion this course will draw upon the freshly published sources as well as secondary materials to examine the historical events that precipitated, advanced and ended the Cold War. It will also explore the role of science and technology in shaping the global arms race and the way in which the war affected the Third World, created new international institutions and impacted Soviet, US, Asian, African and European societies and culture. The course will also address new perspectives arising from recently published archival sources and will utilize film, art and field trips to enhance the learning experience of global Cold War history.

#### **Required texts:**

John Lewis Gaddis, The Cold War: A New History.  
Jussi M. Hanhimäki and Odd Arne Westad, eds., The Cold War: A History in Documents and Eyewitness Accounts.  
Lorenz Lüthi, The Sino-Soviet Split  
Alexander Solzhenitsyn, One Day in the Life of Ivan Denisovitch (Signet Classics edition). Available at the bookstore and as Yale Internet Resource e-book.

#### **Recommended Reading (Library Reserve and Yale Internet Resource):**

Vladislav Zubok, A failed empire: the Soviet Union in the Cold War from Stalin to Gorbachev  
David Krugler, This is Only A Test: How Washington, DC prepared for Nuclear War  
Jeremi Suri, Power and Protest: Global Revolutions and the Rise of Détente

#### **Assignments:**

**Midterm (40%):** There will be a written take home exam at the end of week three. Exam questions will be emailed to class on Tuesday of week three to be turned in by Friday.

**Final (40%):** A final “blue-book” exam will be given at the end of the term. It will cover material from all five weeks of the course. Students will be required to write at least one essay on the films.

**Reading Response (10%):** there will be a 2-4 pages reading response due at the end of week four, analyzing one of the books assigned or recommended for this course. One can also choose a book not on the list after prior consultation with the instructor.

**Primary Sources Reading Response Option:** this option is available as an alternative to the Reading Response assignment and constitutes 10% of the total course grade. A 2-4 page reading response will be due at the end of week four, analyzing a group of documents from the Cold War original source materials available at the University Manuscripts and Archives, such as the H. L. Stimson Papers, Cuban Revolutionary Collection, Dean Acheson Papers or any other relevant collection.

**Class participation (10%):** Students are expected to do all the reading, attend all class sessions and film screenings, and participate in discussion. Participation includes a short field trip to see the primary source exhibition at the University Manuscripts and Archives. A visit to the 1950s nuclear fallout shelter site on campus is optional.
